

Quick Start Guide

Dog Bowl including Drainage Pit

meetpat Accessories PM-DB-02

meetpat Dog Bowl is compatible with the Ground Mount Bottle Refill Station PM-RS-03-GM. This accessory is manufactured in full stainless steel with a self draining system, to eliminate stagnant water and bacteria. Along with anti-bacterial stainless steel nozzles and a soft press foot button for activation.

IB-002-000-00

WELCOME

We began meetpat to change the way people think about public water stations, and in doing so we believe we can drive change for generations to come.

Fundamentally, we care about delivering safe, clean water and ensuring positive public adoption of water stations.

meetpat water stations are world class and intuitive however, use or misuse of this product can not always be predicted. So, as we hand over this product to you, our customer, it will commence adoption into your community or business and become a relied upon resource. We therefore, encourage you to undertake regular servicing and maintenance. This will keep the product functioning at it's absolute best and ensure the positive public adoption of your water station.

Not undertaking regular servicing and maintenance will result in poor user engagement and is likely to effect the product warranty.

Congratulations on purchasing a world class, smart water station.

Please follow the meetpat Refill Station Information Booklet to effectively install your product. Information Booklets are supplied with each Bottle Refill Station or accessible via the link below.

meetpat acknowledge and pay respects to Wiradjuri peoples, Elders and Country whose land we operate our business.

We also acknowledge that Aboriginal and Torres Strait Islander peoples hold extensive knowledge about connections to water, which has been practiced for thousands of generations.
