

Bolt Down Kit PT-BK-01

meetpat Accessories

Product Description

An easy to fit, heavy duty bolt down kit, consisting of 2 ramps. Providing additional stability to the portable refill station. Individual platforms with a non-slip top surface are simply fitted to the top of a portable base. This system can quickly be added or removed from your event set up, with easy hand tighten recessed bolts.

Compatible with PT-RS-03

Especially effective in high wind locations or where regulations call for a larger base footprint.
