

Joiner Hose Kit PT-JK-01-WM

meetpat Accessories

Product Description

The quick connection, joiner hose kit, adds a reliable attachment between multiple refill stations. Creating a wall or bank of products for additional refill outlets at a single location.

Compatible with PT-RS-03 & XS-RS-03-TM

The kit comes complete with; 2x joiner hose, enabling the connection of two refill stations. All additional refill stations require multiple kits to be purchased.

All kit parts can pack easily into the portable carry bag (purchased separately).
